BNB Networks Partnership Solution

Helping small business owners automate their companies for nationwide growth.

Are you interested in automating your cleaning business and making \$10,000

or more per month? If you had the opportunity to give the day-to-day operations to someone else while you focus on finding clients, billing, customer retention and payroll would you be interested? Well, we can help!

BNB Networks Partnership program will help you automate your current Cleaning or Handyman business so you can focus on billing and client relations. Our partnership is simple! We manage the day-to-day operations while you focus on client relation and account retention. This partnership is NOT a franchise opportunity. You will keep your business name and client list, saving you time and money on the daily tasks of management work orders and crews. We are looking to help you make over \$10,000 or more per month by automating your current business model and help you find more clients.

Our Partnership includes:

- Assigning a BNB Networks Operations Manager to oversee your day-to-day work orders
- Helping you find new clients within your service areas
- Helping you find State and Federal Contracts within your scope of work and service areas
- Training you on how to respond to solicitations
- Help you manage current work orders with current client using our work order management system.
 - Our Team **will schedule all your work orders for your current accounts** and crew members
 - You will **receive real time updates** of when sites are being serviced
 - Our Team will send you **before** and **after photos** via email after every service is rendered for Quality Control inspections
 - Our Team will **help you find new cleaners** if someone resigns or is terminated, we will post the position, interview, and forward you the best candidates
 - Our Team will help you **find subcontractors for your business to help manage current contracts**
 - Our Team will send you a **monthly service report** showing all work orders scheduled per client, per location, work order number, services rendered, crew/staff assigned and if the work order was completed

BNB Network Partnership program will help your business become a high six -seven figure remote business that's automated. All you have to do is monitor all clients and locations using our mobile application, review after photos, focus on customer relations, and account retention. **BNB Networks will do the rest! You will never have to disclose who your clients.**

We WORK FOR YOU as an Operations Partner, turning your company into a cloud-based business! If interested, contact Jerry Price CEO of BNB Networks for more details and partnership pricing.
